

## LGF Ultimate

The name says it all this is the Ultimate! Wait until you hold it in your hands and start knitting with it! I swear it gets softer and more lustrous as you knit!

Ultimate is a fine fingering. It's as soft and warm as the finest cashmere. It has luster, drape and brilliance like silk. It's takes dye so beautifully! Once blocked you will likely never have to block it again unless it needs a bath! Travels fantastically!

It works beautifully in shawls, scarves and any garments in which you want grace and elegance.

It should be knit needles sizes US 3 to US 6, with a gauge of 5-7 stitches per inch.
